# Risk Management risk management resources

Irwin Siegel Agency, Inc. and our partners are committed to building valued, long-term relationships with our clients by providing comprehensive risk management programs and services. We will work with you to develop the customized and realistic risk management strategies that best fit your organization's needs. We encourage our clients to use the full range of valuable risk management resources we provide.

## *Risk Management*

### Telephone Consultations

Our professionals stay abreast of health care issues and practices that can impact your risk management program, and make this information available to you through supportive telephone consultations. Offering a valuable and responsive resource for information on specific risk management and loss control issues and practices.

### On-Site Risk Management Consultations

Medical Risk consultants provide an objective assessment of your organization's risk management program. Our detailed follow-up reports identify actual and potential areas of liability exposure and offer practical recommendations for improving the process.

### On-Site Focused Risk Assessments

Medical Risk consultants conduct on-site focused risk assessments of specific high-risk clinical areas. We will work with your organization to identify actual and potential liability exposure and provide recommendations for implementing proactive risk reduction strategies.

### Customized In-Service Education Programs

Education programs have been designed to address pertinent issues that complement ongoing risk management programs. Topics include EMTALA, medical documentation, incident reporting, physician/patient communication, medication errors, disclosure of unanticipated outcomes, HIPAA, and physician office practice management, among others. Our education programs can be customized to reflect your organization's specific risk management focus.

### Administrative Risk Management Research & Review

Consultants will review and assist in the development and enhancement of health care organizational policies, procedures, checklists, and forms.
