INSURANCE PROGRAMS & RISK MANAGEMENT

Managing risk in the human and social services industry can be challenging for providers in the current environment. Decreased funding, heightened regulations, and current economic conditions can turn usually well-managed risks into expensive claims.

Irwin Siegel Agency puts your organization at the center of the risk management process. This team-based, client-centered approach is what makes ISA unique. We take a proactive approach to supporting your loss control and quality improvement initiatives. Our risk management department members have professional and personal experience in human and social services. This unique perspective enables us to understand agencies' challenges and helps us create customized loss control programs that meet the ever-changing needs of human and social services organizations.

Choose ISA and experience the best-in-class risk management services tailored to your unique needs. Our commonsense boutique approach provides affordable services, making managing your loss control efforts easy. Highlights of our capabilities include, but are not limited to:

PROACTIVE RISK ASSESSMENTS

Full assessment of all programs within your organization to identify potential liability, property, employee, financial, and security losses to remedy exposure areas and mitigate the potential for a loss before the loss occurs.

ABUSE MITIGATION POLICY AND PROCEDURE REVIEW

Complete assessment of abuse prevention, including review of all current organizational documents and processes (written policies, procedures, practices) around the protection of both staff and clients served.

CLINICAL

Consultative services are available on various healthcare risk management programs with advice on best practices and individualized solutions to mitigate risk and improve overall safety.

INCIDENT REVIEWS

Conduct a thorough review of current incident reporting practices as well as reviewing incidents and conduct an initial analysis based on frequency, severity, and location (if applicable).

TRAINING

Evaluate current training practices and assist in developing a comprehensive training recommendation plan as needed. The program will provide opportunities for training that enhance overall staff competence and safety awareness.
